

International Conference on Ultrafast Optical Science “UltrafastLight-2018”

Program changes:

Section 1:

New schedule is in a separate file in the Conference Program section of the website

Section 3:

Monday, October 1st, 12:00-12:30 , The report of **I. Staude** is *cancelled*, in its place: **A. Sarychev**
“Giant optical fields in dielectric resonance metasurfaces and SERS”

Monday, October 1st, 19:25-19:30 , The report of **E.Ageev** is *cancelled*

Wednesday, October 3rd, 15:00-15:30 , The report of **V.Veiko** is *cancelled*

Wednesday, October 3rd, 15:30-16:00 , The report of **N.Sanner** is *cancelled*

Section 4:

The schedule of the second session (**Monday, October 1st, 15:00-17:00**) is changed:

15:00-15:15	D. Pushkarev Femtosecond laser superfilamentation under various focusing conditions
15:15-15:30	D. Mokrousova The influence of air humidity on the ultrashort pulses filamentation
15:30-16:00	L. Arantchouk Experimental study of guided discharge initiated by femtosecond laser filamentation having 10-100cm length and -ms scale duration filamentation of 10-100cm length and 1-ms duration
16:00-16:15	A. Shutov Three body attachment of electrons in humid air
16:15-16:30	N. Panov Third harmonic generation from regularized superfilament
16:30-17:00	A. Demircan Two-color Femtosecond Soliton Bound States

The report of **A. Zemlyanov** is *cancelled*,

On **Monday, October 1st, 18:15-18:30** the report of **A. Shutov** is *moved* to the second session (see above), in its place **E. Vasilyev** “Femtosecond annular light bullets in a medium with anomalous group velocity dispersion”

The report of **V. Pankratov** will take 15 minutes, **Monday, October 1st 19:00-19:15**
